FOR DELEGATE TO CONGRESS

JAMES COLLINS

OF IOWA COUNTY.

THE INDIAN MURDERERS—ANTI RENT
ism.—At last accounts about thirty-five persons had been arrested in Delaware county, N. Y. on suspicion of being concerned in the murder of STEELE, or engaged in the Indian riots. One or two have made confessions, and it is thought there will be little difficulty in obtaining testimony sufficient to convict a large number of them. The friends of law and order in Delaware, appear to be determined that the rioters and murderers shall have meted out to them the severest, strictest measures of justice. It is believed that the murder of Steele, horrid as it is, will be the means of a speedy and final breaking up of down-rentism in D.

ABOLITION CONVENTION.—A friend writes us from Prairieville that the Abolitionist assembled en masse in convention there, on the 20th inst.; and that forty-one bold spirits, all told, constituted this mass meeting, which they had been six weeks in drumming up. That Mr. SHOLES, Editor of the Freeman, delivered himself of a glowing, burning, sublime, soft speech; or (to use the language of the boy who, when asked, how he liked the parson, to whom he had been listening,) "he soared aloft on the wings of fame, and fell on dad's woodpile." Not having received the Freeman, we are unable to give the particulars of the proceedings of the Convention.

It is said that the Cabinet at Washington are calmly awaiting the final resolve expected hourly from Mexico; and that in the event of a formal declaration of war, the President will convene Congress in advance of its regular re-assembling in December.

A SON OF AMOS KENDALL KILLED.—We learn from the correspondence of the N. Y. Herald, that a most melancholy affair occurred in Washington on the 18th inst. It appears that Wm. Kendall, (son of Amos Kendall,) Rufus Elliott, (brother-in-law of Mr. John C. River, late of the Globe firm,) and Joseph Baily, intimate and friends, got into some difficulty at a tea party—where Elliott retired, went to his lodgings, and procured a six-barreled revolving pistol, with which fully charged, he came down upon Pennsylvania Avenue, and encountered Baily and Kendall, interchanged some angry words with them, when Kendall, with a stick, advanced upon Elliott, who immediately drew forth his pistol, fired and shot his antagonist through the breast, killing him almost instantly. The whole population at Washington are said to be deeply affected at the untimely end of young Kendall.

The Baltimore correspondent of the N. Y. Herald, under date of Aug. 19th, says the Major Ringgold's troop are all stored on board the ship Hermon, and will start in about an hour for Matamoros, Texas. They are all in fine spirits, and the sailors are anxious to test the merits of their company by a speedy conflict with the Mexicans. They are all active, able bodied men, and present the finest military appearance, solid and substantial, that I have ever seen.

We are indebted to the Madison, Capt. McFadyen, for New York and Buffalo papers in advance of the mail. They came very opportunely as we had no mail yesterday east of Chicago.—The Madison is one of the safest and best boats on the lakes, and her commander deserves the most popular of captains.

ARREST OF CONSPIRATORS.—Two men were arrested at Buffalo on the 19th, having in their possession counterfeit money to the amount of \$5,500 in bills of the Onondaga county Bank, at Syracuse, of the denomination of \$10, and three of N. Y. State Bank at Albany.

MAGNETIC TELEGRAPH THROUGH NEW JERSEY.—Mr. Kendall, says the Newark Advertiser, has concluded arrangements for establishing the Telegraph along the old Switz route from Philadelphia to New York. The wires will be stretched upon posts from 25 to 30 feet in height, placed at distances of about 175 to 200 feet apart.

BLOODY DUEL.—The New Orleans Picayune of the 6th states that a bloody duel was fought near that city between a Pole, said to be a teacher of the small sword exercise, and a shoe maker, in which both were killed on the spot. They fought with pistols, at five paces, and at the first fire both fell.

The last Nauvoo Neighbor announces the fact, that the last shingle has been placed upon the roof of the Temple.

CAMIE M. CLAY.—The Louisville Journal of the 18th says, that Camie M. Clay has published a handbill, giving an outline of his plan of emancipation, couched in such terms, as to do away with all apprehensions of further excitement.

Memoirs. Hough & Scoville and their company are attracting crowded houses. Last evening and the evening before they gave universal satisfaction. Their exhibitions stir up the better feelings of the heart, at the same time they afford amusement, and occasionally compel one to laugh heartily.

Concert this evening at the Congregational Church by R. Bacon & Lady. The known musical talent of the performers, will, we trust, ensure them a full house.

WAR RECOMMENDED.

FROM MEXICO DIRECT.

Letters and papers from Mexico, says the Union, were received at Washington on Sunday evening, via Pensacola, at the Department of State. We have been furnished with the "Diario del Gobierno," of Mexico of July 21st. The reader will of course remark that these official papers, addressed by the Executive Government of Mexico to Congress, are not so much the declaration of war as a recommendation to declare it. It remains of course, for Congress to decide the fate of the proposition. They will determine whether they will rashly precipitate their country into war with the United States, and will also decide upon the best mode of raising "the sinews of war" in the shape of \$15,000,000.

Art. 1. From the moment when the supreme government shall know that the department of Texas has annexed itself to the American Union, or that troops from the Union have invaded it, it shall declare the nation at war with the United States of North America.

Art. 2. The object of this war shall be to secure the integrity of the Mexican Territory, according to its ancient limits, acknowledged by the United States in treaties from the year 1823 to 1836, and to insure the independence of the nation. God and Liberty!—Mexico, July 21st '45. LUIS G. CUEVAS.

On the same day a proposition was submitted to the Chamber of Deputies by the Minister of Finance, for a law empowering the government to contract a loan of fifteen millions of dollars, either at home or abroad. [N. Y. True Sun.

SHOEMAKING.—Prof. Ingraham thus graphically describes the town of Lynn, Massachusetts, the seat of shoemakers, and the vast cordwainery of the whole Union:

The very pleasant and thriving town of Lynn is the Paradise of shoemakers! Its young men, early transferred from the cradle to the last, cut their teeth and leather at the same time, and its pretty maidens learn to bind shoes with the introduction of their a-b-shs. Lovers exchange hearts over a kid slipper, and swear eternal fidelity over a lap stone. If they would get married, they ask old Dr. Waxend the parson, if he will stitch them together, and they will pay him in shoe-making. Whipping their children is called tanning, and the rod they use is a cowhide. The little boys swear by "hides and leather," and play at games which they call "high and low quarter, and toe." A child newly born is a lap stone, and the age of their children is known by the number of shoes they wear. Boys are called rights, and girls lefts—an old maid is an odd slipper, and an old bachelor an odd boot. The street doors to their dwellings are "in-steps," and a man in an overcoat is "foxed." The fields about the town are patches, and a fellow half-sees-over is half-soled. They never see an oak tree, but they directly calculate the number of pegs it will make, and when they behold trees at work they reflect that the only end of wax is waxed end. They look on all cattle and sheep as only leather-growers, and believe that hogs were only made to produce bristles. Its lap-stones would pave Broadway, and its lasts, if piled together, would make a monument higher than that on Bunker Hill.

THE CHINESE GONG.—Among all the noxious instruments of sound which savage invention ever brought into the world, says the Spota Gazette, the "Chinese Gong" stands pre-eminent for the production of horrible discords and unmeaning and nerve-tearing noises. The "Chinese beat it upon the occasion of an eclipse, to frighten away the terrible dragon which they fancy is devouring the eclipsed luminary. The resemblance which we shall leave the reader to detect, between the characteristics of the gong and a certain U. S. Senator, distinguished as much for longevity of ears as of person, won for the said Senator at Washington the title of "The Chinese Gong." It was thus—One day this Senator arose in his seat, and after his fashion opened his mouth and said—"Mr. President!" The President of the Senate, (who was at that moment busily engaged in examining a bundle of papers) responded in his usual bland and gentlemanly tone, "The gentleman from China," and raising his eyes at the moment, hastily corrected himself with, "I beg pardon, the gentleman from Ohio." A shout of laughter from the members, "irrespective of party," more violent and prolonged than any ever before heard in the Senate Chamber, acknowledged the hit. It took the brass "out of the gong," who seated himself in a perspiring state of confusion. It is needless to say that all Washington laughed "till it ached" over the event. It is feared that the title, so opposite and well earned, will prove a sort of "old man of the sea," to the brainless demagogue who bears it.—Alb. Citizen.

LOWELL AS IT WAS AND IS. By R. V. Henry A. Miles, is a neat 18mo of 234 pages just issued by Powers & Bagley, Lowell. It is full of facts of general interest. We learn from it that the Merrimack Company (whose dividends are so often quoted) employs 1250 women, whose average earnings considerably exceed \$2 per week above the cost of their board. The laboring men average 85 cents per day above their board; 50 over-seers receive \$2 each per day with occasional premiums. [These are the reduced wages we hear of! None are employed under 15 years of age. No woman is retained a day after she is known to be guilty of illicit conduct, but not one in a hundred is ever discharged for any such cause.

The average running time is 12 hours 10 minutes per day, which is too long and should be shortened, but the average working time of each hand is but ten hours and a half. In the Boot Mills a careful ac-

count of the working time has been kept, and it appears that 106 girls have averaged 277 days each in a year, and 18 hours 8 minutes per day, each being paid according to her work, and \$3.11 are paid in cash every month,—not one farthing in store orders, or better of any kind. The average earnings of the women in the factories, including novices, is \$1.93 per week besides their board. Many girls who have been school teachers gladly take places in the mills, as the pay is higher here, and the work lighter, tho' the hours are longer. No one has lost a sixpence of her earnings in the Lowell factories since the first was started. The girls have about \$100,000 in the Savings Bank.

Such is the condition of the laboring class in the principal manufacturing town in America. Granted that it is not all it should be—that it might and should be improved—it is still true that nowhere else does a laboring class of equal number earn so much year by year; nowhere else are they so constantly employed, comfortably situated or adequately rewarded. Let those who would overthrow this state of things go to work and build up something better, or show how it may be done. Until they have some crude notions of this sort, ought they not to cease their incessant warfare on American manufacturers? [N. Y. Tribune.

THE MAGNETIC TELEGRAPH.—A correspondent of the Albany Argus, writing from Washington, gives the following account of the operations of this wonderful invention:

Appropos of the express-electro-magnetic telegraph. I have seen its operations here, and have been highly pleased, astonished and interested. The principle upon which it acts is now pretty well understood all over the U. States, at least; this I was familiar with before seeing its application, but I had not "realized" it adequately, as no person can who has not seen the thing itself. It is under the control of the general government, and adjoins the city post office. I entered the office and requested permission of the superintendent (a boy of 15 or 16) to examine the apparatus. He very politely showed and explained everything. It is very simple and easily comprehended by any one who has seen the experiment of the galvanic current applied to the magnet. The machinery, fixtures and all, occupy less space, and are much less intricate, than a Yankee clock.

"Will you send your card to the gentleman in Baltimore, and have it returned by the Telegraph?" With pleasure, sir, here it is." He taps with one finger upon a little horizontal lever: "Attention! in Baltimore—all ready"—tap, tap, tap, goes the lever again, making the characters corresponding with the seven letters of the cards. "Your name is in Baltimore, sir." Presently, whizz! whizz! goes the machine, and out rolls a slip of paper with the seven characters stamped upon it—done by "the gentleman in Baltimore." "There is your card sir." All in eighteen seconds!

Preparations for War.
A correspondent of the Norfolk Herald writes from Pensacola, July 28, that the U. S. ship Falmouth sailed on the 25th inst. The Potomac, Saratoga, and U. S. brig Lawrence are now underweigh for the coast of Texas and Mexico. The Somers remains until further orders.

The Union of Monday says—
The Marion, at Boston, is nearly ready. The Congress, at Norfolk, will be ready in two weeks, and will sail for the Pacific under Captain Stockton. Commander Dupont goes out on her on special duty.

The Columbia, at Norfolk, and the U. States, at Boston, (both frigates) will, as a reserve force, be ready for sea, the one in thirty, the other in forty days, if needed. The big Dolphin, at Norfolk, is ready for sea; as also the Dale.

It is to be hoped, that there will be no occasion for employing any part of this additional force; but it is due to our commerce to be prepared to protect it. The necessary orders for the Pacific station were forwarded long ago. The Cyane will be a valuable aid to our squadron in that ocean; and with the returning East India squadron, and the Constitution, our commerce in that quarter seems, for the present, safe enough.

There is no doubt that the administration is taking every precautionary measure to meet any contingency which may occur. It is throwing troops into Texas, and providing arms and rations for any addition force which the Texans may bring to our aid. We are collecting strong squadrons in the Gulf and on the Pacific. If Mexico should be mad enough to declare war, and attack us, we shall be prepared to meet her at once. The promptitude and energy of our government will be felt at every point.

Going it Strong.—We understand that Martin, the Lorococo candidate for Delegate in the Territory, finding himself incompetent to cope single handed with Col. Collins, has been compelled to call to his aid the services of Moses M. Strong.—The old Colonel, however, is said to be a match for both of them. Persons who were present at the meeting at New Digins, on Saturday last say, that the result of the meeting will be the loss of many votes to Martin, and a great accession to the number of Collins friends.

In the name of the Whigs of Southwestern Wisconsin, we call upon those elsewhere to do their duty, and victory will certainly reward them for the effort. In this portion of the Territory, Col. Collins will receive a vote, we are assured by every one at all familiar with public sentiment, that will astonish even his warmest friends. Whigs of the Territory, we again charge you to do your duty.—[Galena Gaz.

NEW SORT OF MONKEYS.—A newly invented monkey has recently been tried at Potsdam, Prussia, with perfect success. It will carry from 1000 to 1200 pieces, and will fire fifteen times in a minute.

TRADE AND COMMERCE.

Office of the Daily Sentinel,
Milwaukee, Aug. 26, 1845

The excitement in the wheat market for the last few days, has in a measure subsided. Wheat of good quality sells at from 85 to 86. No material change in other kinds of produce.

In Chicago, on the 25th, says the Journal, prices range from 61 to 65 for good samples winter, and from 40 to 50 for spring wheat.

BUFFALO, Aug. 21.
The news received by the Eastern mail, altho' of a conflicting nature in relation to the amount of flour taken on English account, has had a tendency to induce holders here to advance their demands to \$3.25 to \$3.75 for Western flour from new wheat, and \$3.60 for fresh ground from old. At these quotations the following sales have been made, viz:—300 bbls Ohio at \$3.75—100 do at \$3.72, and 200 bbls fresh ground from old wheat 3.69. In wheat there is nothing doing, and none on the market except what is in store. From the best information we can possess, we are inclined to think the apprehensions of a bad harvest in England will not be realized, and if the paper statements in New York have the effect to run the market up, it is our impression that advantage should be taken of it to sell.

[Buffalo Com. Adv.

FLOUR AND MEAL.—The filing of the English mail in relation to, and further sales 5000 bbls Ohio and Michigan have been made at 45.00 for shipment. The entire purchases, as far as we can ascertain, are 15,000 bbls. That amount of freight has been engaged, and applications to a considerable extent are still making to the packet people. All that can be taken in the packets to the West, at this time, has been engaged. The taking price has been 25.00 for good samples, and 26.00 for the best. The demand for flour from the regular trade has been very light during a day or two, the dealers having left the market almost entirely to shippers. We quote Ohio and Michigan 4.37 and 4.50; Genesee 4.50. In grain, we quote, as follows:—Maryland wheat, 1600 bushels, sold at 92 cents, and a lot of 750 bushels Southern broom 85 cents—all for milling. Corn is scarcely so firm to-day, but the supply is small and there is but little doing.—[Tribune.

SAND'S SARSAPARILLA.—The reme-
dy of suffering has been the object of the
philanthropist in every age of the world, but
true principles of treating disease progress-
sively for many thousand years, owing to
the limited means of acquiring knowledge. It
has been since the introduction of the printer's
press and steam engine it may be said, and
"Light has dawned upon the world," and the
man of the nineteenth century possesses an ac-
cess to the knowledge of the past. In this gen-
eration which his fathers never reached. In this
generation of knowledge, remedies have
been sought after and discovered in the beau-
tiful storehouse of the vegetable creation ex-
actly calculated to combine with, neutralize
and disperse the subtle poisons which disease
travels through the system and possess
themselves throughout the general system, a
triple action in the vegetable preparation, has
been found. Sand's SARSAPARILLA, a
purely vegetable preparation, has been thor-
oughly tested in a variety of diseases, and
from experience, known to be a safe and effec-
tive cure for Scrophula, or Enlargement of the
glands, Leprosy, Salt Rheum, Scald Head,
Eczema, Rheumatism, Pimples of the Head,
and other diseases originating in an impure
or depraved state of the blood or derangement
of the digestive organs. Original manufacturers
of various certificates, letters of the clergy, Mag-
istrates and lay, all confirming the efficacy
and statements, are constantly received, and will be
cheerfully exhibited on application. Facts are
recorded sufficiently clear and convincing to
satisfy the most incredulous of the real merits
of this invaluable medicine.

For further particulars and conclusive evi-
dence of its superiority, purity and efficacy, see
pamphlets, which may be obtained of Agents
everywhere. Prepared and sold, wholesale and re-

PROLAPSUS UTERI.
THIS troublesome disease is cured by the
use of Hull's Uterine Abdominal Supporter,
from the many certificates in its favor we
select only the following of Doctor Ashwell—
After its successful trial in Guy's hospital, the
following certificate was handed to Dr. Hull's
London Agent, the public use.
18th November, London, Mar. 17, 1838.
"Having tried Dr. Hull's instrument for the
cure of Prolapsus and Procidencia Uteri, I am
glad to express a highly favorable opinion of
its utility. In a severe case of entire Proci-
dencia, lately under treatment at Guy's Hospi-
tal, it was applied with marked success. Its
great superiority over the pessary consists in
its offering efficient support to the weak and
abdominal integument, and in its external ap-
plication, instead of its introduction into the
vagina. I quite think it will accomplish a per-
manent cure better and more quickly than the
pessary."
SAMUEL ASHWELL, M.D.,
Obstetric Physician, and Lecturer at Guy's Hospital.
Sir Astley Cooper, after the apparatus had
been several months under his inspection, gave
the following opinion for publication:—
"This apparatus is beautiful for its simplicity,
it is an acquisition to practice. The principle
of its operation is quite original and per-
fect. I shall advise its use, and make use of it
in my own practice, in preference to anything
I have seen."
The above valuable instrument can be found
at the Medical store of the undersigned, who is
the agent for the sale of the same in Wiscon-
sin.

SCARPA'S ACUSTIC OIL.
From the Albany Argus.
WONDERS WILL NEVER CEASE!
Another remarkable cure of Deafness, per-
formed by Scarpa's Acoustic Oil, in this city.
Let the case speak for itself.
Albany, Feb. 23, 1844.
Mr. Guthrie, 4 Stanwix Hall, Maiden Lane,
Dear Sir—I owe you an immense debt of
gratitude for inducing me to try Scarpa's
compound Acoustic Oil. I had been so very
deaf for eight years this winter, that I could
not hear conversation with any person, and
without the Oil I could not have heard a word.
I have been using the Oil about six weeks in one ear
that was for the worst, and with which I was
almost totally deaf, and I am happy to inform
you that I can now hear ordinary conversa-
tion without the trumpet. I feel that I would
like to inform the whole deaf community of
the astonishing effect of the above medicine.
I shall be pleased to see any person who may
desire to call upon me, to make inquiries con-
cerning my case. Yours, &c.
